## SAYS GERMAN VOTE IS FOR MCKINLEY.

WASHINGTON, June 23.—"Our friends, the Democrats, are trying," said General Charles Dick, secretary of the Republican National Committee, to-day, "to make everybody believe the German vote this year will go to the Democratic party, but there is not the slightest likelihood of this being the case. In 1896 the Germans voted for President McKinley. They are strong believers in the advantages of a gold standard of currency. This the Republican party has given them. They know that, should the Democratic candidate for President be elected, which of course would mean Democratic control of Congress, then the gold standard law will be repealed and free coinage of silver will be foisted upon the country. The Germans do not want this. They are probably the most level-headed European people who come to live here. They know they are better off here, can make and save more money than they did in the fatherland, and they are not people who are led away by flights of imagination.

"An effort is being made to bring the Germans into the Democratic line by scaring them with the bugaboo of imperialism, which, it is claimed, would compel a large increase in our military forces. Many of them have come here to escape the strict military laws that are in force in Germany, and naturally they would not favor anything tending in the same direction in this country.

"I am glad this subject has developed this early in the campaign, because the Germans will have time to read and study what the actual conditions are as to our military forces, comparing them with their fatherland. Germany has over 52,000,000 people. Its standing army is 600,000 men, an average of about eleven and a half soldiers to every thousand people. The United States has 76,000,000 and a standing army of 65,000 men, which is equivalent to 85 hundredths of one soldier to every thousand of our population. While Germany has nearly eleven soldiers more per thousand of her people than we have, there cannot be the slightest chance of the effect of imperialism being experienced in this country.

"Even our present increase of about 25,000 men is but temporary, as the law authorizing it expires on July 1, 1901, just a year from now. As a matter of fact, this country has not been affording sufficient protection to its citizens in proportion to their increase. If our German friends will study the matter in this light they will see that we are as far removed from militarism and imperialism as we were fifty years ago."
